

Our commitment to providing outstanding service means that all of our customers receive our unique service and support package.

For over three decades we have provided Chemique's **Total Service Package** and this ensures that you receive the *right product*, the *right application* and the *right service*.

Our Total Service Package* includes:

- ✓ **Tailor-Made Adhesive and Sealant Solutions**
Chemique works closely with customers to provide formulations that suit their particular needs.
- ✓ **Rigorous Quality Control**
We perform a multitude of tests to ensure that all of our products are manufactured to the highest quality, providing peace of mind that all of our adhesives consistently meet your exact technical specifications.
- ✓ **Full Engineering & Technical Support**
Chemique's fully trained staff offer on-going technical support as well as:

 - Advice on improving the production process
 - Pre-delivery adhesive and equipment testing
 - Installation of new equipment
 - Servicing of pumps, spray guns and other equipment
 - Engineering call outs
 - Service contracts
- ✓ **Product Demonstrations & Samples**
We offer demonstrations and samples of our adhesives so that customers can be sure that the product meets all of their requirements before ordering.
- ✓ **Comprehensive Training**
Full training can be provided on the product and application equipment, providing peace of mind for the customer.
- ✓ **Full Range of Accessories**
A full range of cleaners, sealants, primers and coatings are available along with stock of spare parts and filters for all standard application equipment.
- ✓ **After Sales Support**
We provide full after sales support to ensure that all products and equipment are working to specification.
