

Why Buy From Us?

Value For Money

In reality, we all want the best for our money and Chemique's streamlined manufacturing and procurement allow us to offer great products at a competitive and realistic price.

Quality Control

We perform a multitude of tests to ensure that all of our products are manufactured to the highest quality, with every batch tested and stored, providing peace of mind that all of our adhesives consistently meet your exact technical specifications.

Tailor Made Solutions

We work closely with our customers to provide formulations that suit their particular needs. Our experienced chemists and engineers are on hand to provide new and innovative solutions to suit any adhesive and application requirement, for the most cost effective solution possible.

Technical Knowledge

Our highly experienced team have the technical knowledge to provide you with a service that is second to none. Our specialist knowledge means that we can stay at the forefront of adhesive development, therefore providing our customers with new and innovative solutions across many market sectors.

Experience

With over 30 years of experience in adhesives manufacturing, we've developed a business with a solid foundation that meets the needs of our customers and we always strive to offer the best level of service, support and advice.

Testing

We have the combined know-how and experience of analyzing adhesives for a wide range of applications. Our dedicated team carry out multiple test methods that evaluate various factors such as peel strength, seal strength and adhesion strength, enabling us to develop superior industrial adhesives.

Adhesive Performance

Here at Chemique, we're continually developing ways to enhance the technical characteristics of our adhesives, to improve the performance and quality, as well as providing the very best value for the customer.

Environment

At Chemique, we pride ourselves on our eco-friendly policy. We're continuously researching and developing our products to meet the toughest demands – but also to make them as environmentally friendly as possible. In fact, a variety of our adhesives are MAS Green certified and GreenGuard Gold certified, two rigorous testing standards for low-emitting materials.

After Sales Support

Our commitment to your satisfaction does not end when your order leaves our premises, as all of our customers receive our unique service and support package. Whether you need us to answer any questions, offer technical advice or engineering support, we're always on hand to assist with such matters.
