

EM8024 ½" Diaphragm Pump Spray System

- The Aro ½" Polyprop/Teflon double diaphragm pump is wall mounted and fitted with a suction tube suitable for a 205 litre steel drum
- Desiccator unit is fitted to the ¾" bung
- The suction tube is supplied with a 2" bung to reduce the evaporation of solvents and the ingress of moisture
- The adhesive is fed to a Devilbiss HD spray gun through a 3 metre braided hose set
- Air prep and fittings are also included
