

Our Brands

Aerotak[®]

Aircraft Seating Adhesive

Aerotak CAS 201FR is a non-flammable sprayable adhesive, suitable for style pad manufacturing. It is an ideal solution for bonding combinations of fabric, leather, foam, e-leather and scrim materials into style pads, utilising a hot press stamping method.

Ideal for: Aircraft seating

Axil[®]

Manufacturing Adhesives

Developed to solve today's most complex bonding issues, the Axil range of adhesives covers a wide variety of applications across a broad spectrum of industries. Product types include water-based, solvent-based and polyurethane technologies.

Ideal for: Acoustic materials, Fabric, Foam, Insulation, Metal, Plastic, Rubber, Wood

Polyped[®]

Raised Access Flooring Adhesives

Polyped includes a range of products suitable for the access flooring market, including a floor sealer, thread locker and a one component pedestal adhesive that has been specially formulated for bonding metal pedestals to concrete subfloors.

Ideal for: Floor sealing, Pedestal installation, Thread-locking

ProAqua[®]

Foam Bonding Adhesives

ProAqua is a range of one and two component water-based sprayable adhesives, superior in performance to solvented products. Their unique qualities have made this adhesive range a popular choice in the foam and furniture industry.

Ideal for: Foam fabrication, Furniture, Mattress manufacturing, Office seating, Upholstery

Protak[®]

Bedding, Packaging & Woodworking Adhesives

Suitable for a diverse range of applications, the Protak range includes a variety of high-performance adhesives consisting of hot melts, membrane press adhesives and PVAs, primarily used in the woodworking and furniture industries.

Ideal for: Foam, Furniture, Joinery, Mattress manufacture, Packaging, Vinyl wrapped doors, Woodwork

Solfre[®]

Laminating Adhesives

Includes a variety of one and two component polyurethane adhesives ideal for panel lamination. The Solfre range offers a number of controlled open time and cure rates to suit a range of bonding processes and provides excellent adhesion to many substrates.

Ideal for: Panel manufacturing, Modular construction, Transport, Flooring

Turftak[®]

Artificial Turf Adhesives

Includes a selection of one and two component polyurethane adhesives for use in the installation of artificial turf and is suitable for bonding a variety of substrates and joining tapes for both indoor and outdoor applications.

Ideal for: Artificial Turf - Domestic, commercial and sports applications
